

Eisuke HAYASAKA: **Two New Combinations in Chinese *Schoenoplectus* (*Cyperaceae*)**

中国産フトイ属 (カヤツリグサ科) の学名の2新組合せ (早坂英介)

Summary: Two combinations in Chinese *Schoenoplectus*, that have been invalid under Art. 33.4 of ICBN, are validated.

In volume 2 of Index Florae Yunnanensis, the new combinations *Schoenoplectus chen-mouii* (Tang & F. T. Wang) C. Y. Wu, *S. fohaiensis* (Tang & F. T. Wang) C. Y. Wu, and *S. schoofii* (Beetle) C. Y. Wu were proposed for the species of Yunnan, China (Wu 1984). These three species are recognized as distinct and the above combinations are cited in volume 15 of Flora Yunnanica (Dai et al. 2003). However, these combinations are invalid under Art. 33.4 of ICBN (McNeill et al. 2006) because neither Wu (1984) nor Dai et al. (2003) made page references of their basionyms. The combinations *Schoenoplectus chen-mouii* and *S. fohaiensis* are validated below. The combination *Schoenoplectus schoofii* (Beetle) Soják was validly published by Soják (1979) prior to Wu (1984).

***Schoenoplectus chen-mouii*** (Tang & F. T. Wang) Hayas., comb. nov.

*Scirpus chen-mouii* Tang & F. T. Wang, Fl. Reip. Pop. Sin. 11: 26, 223 (1961).

*Schoenoplectus chen-mouii* (Tang & F. T. Wang) C. Y. Wu, Index Fl. Yunnan. 2: 2120 (1984), comb. invalid.; L. K. Dai & al., Fl. Yunnan. 15: 579 (2003), comb. invalid.

***Schoenoplectus fohaiensis*** (Tang & F. T. Wang) Hayas., comb. nov.

*Scirpus fohaiensis* Tang & F. T. Wang, Fl. Reip. Pop. Sin. 11: 23, 222 (1961).

*Schoenoplectus fohaiensis* (Tang & F. T. Wang) C. Y. Wu, Index Fl. Yunnan. 2: 2120 (1984), comb. invalid.; L. K. Dai & al., Fl. Yunnan. 15: 577 (2003), comb. invalid.

中国産フトイ属の学名の2新組合せ *Schoenoplectus chen-mouii* (Tang & F. T. Wang) Hayas. と *S. fohaiensis* (Tang & F. T. Wang) Hayas. を発表した。これらの組合せは既に雲南種子植物名録 (Wu 1984) で提案されていたが、そこでは基礎異名の出典のページ引用を欠いていたために正式には発表されていなかった。また雲南植物誌第15巻 (Dai et al. 2003) でも同じ組合せが引用されているが、ここでも正式名とはされていなかった。
